2.3 Market Potential and Commercialization Plan 市场前景和商业化计划

In approximately 1-3 pages, describe the market potential of the project outcome (product or service), and describe the commercialization roadmap for taking the project outcome (product or service) to market. Clearly address each of the following items:

- The commercial potential;*
- The planned path to commercialization/application and how it will achieve the identified outcomes;*
- How the funding sought will generate a return on investment;*
- How the solution answers market needs;*
- The domestic and global market size are identified and detailed;*
- The expected market share for the product;*
- Significant competitive advantage for the product/service based on a comparison of competitor companies and products.*

2.4 Cooperation between Participants (Synergies, advantages, complementarities, etc.)

双方合作开展的工作（如：协同效应、优势、互补性等）

In approximately 1-2 pages, describe the intended cooperation and expected benefits for the project outcome from working together; the benefits for each partner from working together; and the partners' respective strengths. Also, clearly address each of the following items:

- The position of the companies in the sector;*
- The capabilities of the management and research and development teams;*
- Financial capability of each company;*
- Past performance*

2.5 Expected Outcome of Project 项目预期成果

In approximately 1-2 pages, describe the final expected outcome of the project. Describe the range of project outcomes but provide one specific final outcome or project end-goal - for example, "First generation product achieving sales in China/Israel OR Manufactured Product exported to "x/y/z" countries OR Service installed for six domestic companies, Export installations being investigated OR "Alpha" Prototype successfully trialed in both Israel and China, etc.

Also, clearly address each of the following items in terms of the project's contribution:

- The potential contribution of the technology to the economy and society;*
- How project outcomes will contribute substantially to Israel & China's industrial, commercial and economic growth;*
- Commercialization activities to occur in the country;*
- New patents or inventions registered / protected;*
- Additional employment positions created or opportunities;*
- Anticipated contribution to Israel & China (or province's) exports;*
- Support of an industry sector or user group to make productivity gains;*
- The development of new markets or achievement of institutional benefits.*
